

# INTERNAL COMPLIANCE CHECKLIST

**Financial Year Ended:** December 31, 2024

## 1. Purpose and Scope

This checklist is designed to assess the compliance level of the Institute of Construction and Urban Economic Research with current Vietnamese laws and the company's internal policies and procedures.

**Main Objectives:**

- Identify potential compliance risks early.
- Detect gaps in processes and internal control systems.
- Establish an action plan for remediation and continuous improvement.

This document serves as a tool for internal audit teams, risk management departments, and department heads to conduct periodic self-assessments.

## 2. Detailed Review Areas

| Area               | Review Item                                                                                                | Status                                |
|--------------------|------------------------------------------------------------------------------------------------------------|---------------------------------------|
| LEGAL & REGULATORY | <b>Administration &amp; Business</b>                                                                       |                                       |
|                    | <input type="checkbox"/> Compliance with Enterprise Law (organizational structure, business registration). | <input type="checkbox"/><br>Completed |
|                    | <input type="checkbox"/> Business licenses and permits remain valid.                                       | <input type="checkbox"/><br>Completed |
|                    | <input type="checkbox"/> Compliance with Intellectual Property Law (trademark, copyright registration).    | <input type="checkbox"/><br>Completed |
|                    | <b>Finance &amp; Taxation</b>                                                                              |                                       |
|                    | <input type="checkbox"/> Compliance with Tax Laws (Corporate Income Tax, VAT, PIT).                        | <input type="checkbox"/><br>Completed |
|                    | <input type="checkbox"/> Tax filings and reports submitted on time and in full.                            | <input type="checkbox"/><br>Completed |

|                                                  |                                                                                                       |                                       |
|--------------------------------------------------|-------------------------------------------------------------------------------------------------------|---------------------------------------|
|                                                  | <b>Environment &amp; Fire Safety</b>                                                                  |                                       |
|                                                  | <input type="checkbox"/> Compliance with environmental regulations (waste management).                | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Fire prevention and firefighting procedures and documents fully implemented. | <input type="checkbox"/><br>Completed |
| <b>INTERNAL<br/>CONTROL<br/>SYSTEM</b>           | <b>Financial Management</b>                                                                           |                                       |
|                                                  | <input type="checkbox"/> Implementation of recommendations from the previous year's audit report.     | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Strict adherence to expenditure approval processes.                          | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Periodic and accurate preparation of internal financial reports.             | <input type="checkbox"/><br>Completed |
|                                                  | <b>Operational Management</b>                                                                         |                                       |
|                                                  | <input type="checkbox"/> Clear policies on authority delegation and responsibilities.                 | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Fixed asset management system updated and inventoried periodically.          | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Transparent procurement and bidding processes.                               | <input type="checkbox"/><br>Completed |
| <b>HUMAN<br/>RESOURCES &amp;<br/>LABOR</b>       | <b>Records &amp; Contracts</b>                                                                        |                                       |
|                                                  | <input type="checkbox"/> Employee records stored securely and completely.                             | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Labor contracts signed in accordance with regulations and updated as needed. | <input type="checkbox"/><br>Completed |
|                                                  | <b>Policies &amp; Benefits</b>                                                                        |                                       |
|                                                  | <input type="checkbox"/> Timely and transparent payment of salaries and benefits.                     | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Full compliance with social, health, and unemployment insurance regulations. | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Occupational safety and health policies communicated and implemented.        | <input type="checkbox"/><br>Completed |
| <b>INFORMATION<br/>SECURITY &amp;<br/>SAFETY</b> | <b>Policies &amp; Protection</b>                                                                      |                                       |
|                                                  | <input type="checkbox"/> Information security policies applied and updated.                           | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> IT systems protected (firewall, antivirus, etc.).                            | <input type="checkbox"/><br>Completed |
|                                                  | <input type="checkbox"/> Critical data backed up regularly per schedule.                              | <input type="checkbox"/><br>Completed |
|                                                  | <b>Awareness &amp; Training</b>                                                                       |                                       |
|                                                  | <input type="checkbox"/> Employees trained on information security and                                | <input type="checkbox"/>              |

|  |                                                                          |                                       |
|--|--------------------------------------------------------------------------|---------------------------------------|
|  | privacy.                                                                 | Completed                             |
|  | <input type="checkbox"/> Password and system access policies adhered to. | <input type="checkbox"/><br>Completed |

### 3. Usage Guidelines

**I. Assign Responsible Person:** Designate an individual or team to conduct the review.

**II. Review and Assessment:** Evaluate each item in the checklist and mark “Completed” if requirements are met.

**III. Summarize Results:** Compile key findings and provide an overall assessment upon completion.

**IV. Develop Action Plan:** For incomplete items, create a specific action plan with assigned responsibilities and deadlines.

### 4. Examples of Violations & Risks

| Area                                     | Example of Violation                                                                            | Potential Risk                                                      |
|------------------------------------------|-------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| <b>Legal &amp; Regulatory</b>            | - Late submission of tax reports.<br>- Failure to update business registration information.     | - Administrative fines.<br>- Damage to reputation with authorities. |
| <b>Internal Control</b>                  | - Expenditure exceeding budget without approval.<br>- Fixed asset records not matching reality. | - Financial losses.<br>- Inaccurate management decisions.           |
| <b>Human Resources &amp; Labor</b>       | - Incomplete labor contract terms.<br>- Failure to fully contribute to social insurance.        | - Labor disputes.<br>- Penalties from labor inspections.            |
| <b>Information Security &amp; Safety</b> | - Employees using weak passwords.<br>- Irregular data backups.                                  | - Internal and customer data leaks.<br>- Loss of critical data.     |

### 5. Assessment and Action Plan
