

OCCUPATIONAL SAFETY AND FIRE PREVENTION HANDBOOK

Institute of Construction and Urban Economic Research

1. Purpose and Scope

This handbook is established to ensure a safe and healthy working environment for all employees, clients, and partners of the Institute of Construction and Urban Economic Research. It provides guidelines on occupational safety and fire prevention and control (FPC) to prevent accidents, incidents, and potential hazards.

All employees, including new hires, temporary staff, and visitors, must strictly comply with the regulations outlined in this handbook.

2. Safety Responsibilities

Responsibilities of the Board of Directors and Managers:

- Provide necessary safety equipment and maintain a workplace that meets safety standards.
- Conduct regular training on occupational safety and FPC for all employees.
- Maintain and regularly inspect safety systems and FPC equipment.

Responsibilities of Employees:

- Proactively learn and comply with all company safety regulations.
 - Immediately report any incidents, accidents, or potential hazards to the direct manager.
 - Properly use provided protective and safety equipment.
 - Fully participate in safety training sessions organized by the company.
-

3. General Safety Rules

- Do not use equipment or machinery without proper training or authorization.
 - Do not attempt to repair electrical or office equipment without permission.
 - Maintain cleanliness in work areas, corridors, and public spaces.
 - Report all injuries, even minor ones, to the direct manager.
 - Absolutely do not bring flammable or explosive materials into the office or workplace.
-

4. Fire Prevention and Control (FPC)

4.1. Procedure for Handling a Fire

1. Stay calm and shout: “Fire! Fire!” to alert others.
2. Disconnect power: Safely cut off all electrical sources in the affected area (if safe to do so).
3. Sound the alarm: Activate the fire alarm system by pressing the emergency fire button.
4. Call firefighters: Dial 114 immediately and provide complete details: address, fire location, and type of fire.

4.2. Instructions for Using Fire Extinguishers

- **CO2 Fire Extinguisher:** Suitable for liquid and electrical fires.

- Pull the safety pin.
 - Squeeze the valve to release CO2.
 - Aim at the base of the fire.
 - **Dry Powder Fire Extinguisher:** Suitable for multiple fire types (A, B, C).
 - Shake the extinguisher to loosen the powder.
 - Pull the safety pin.
 - Aim the nozzle at the base of the fire.
 - Press the trigger.
-

5. Office and Equipment Safety

5.1. Electrical Safety

- Do not plug multiple devices into a single outlet.
- Avoid using damaged or frayed electrical cords.
- Turn off and unplug electrical devices when not in use.

5.2. Equipment Safety

- **Printers, Photocopiers:** Do not open or attempt repairs while the machine is operating.
- **Chairs, Desks:** Ensure all components are functioning properly and not loose.

5.3. Evacuation Plan

Evacuation maps are posted in visible locations, typically near elevators and staircases.

- Take time to familiarize yourself with the locations of emergency exits, fire extinguishers, fire alarms, and first aid kits near your work area.
 - In case of a fire alarm, follow the directional arrows on the evacuation map to reach the designated safe assembly point.
-

6. Incident Handling and First Aid Procedures

- **Incident Reporting:** All accidents or incidents, regardless of severity, must be reported immediately to the direct manager and HR department.
 - **Basic First Aid:** First aid kits are located at the reception desk or common areas on each floor. Use the medical supplies in the kit for initial first aid if needed. Call emergency services (115) for serious incidents.
-

7. Commitment to Compliance

I have read, understood, and commit to complying with all occupational safety and fire prevention regulations outlined in this handbook. I understand that non-compliance may lead to serious consequences for myself and others, as well as disciplinary actions from the company.
